

AAI Opens New Adoption Program in

Kazakhstan

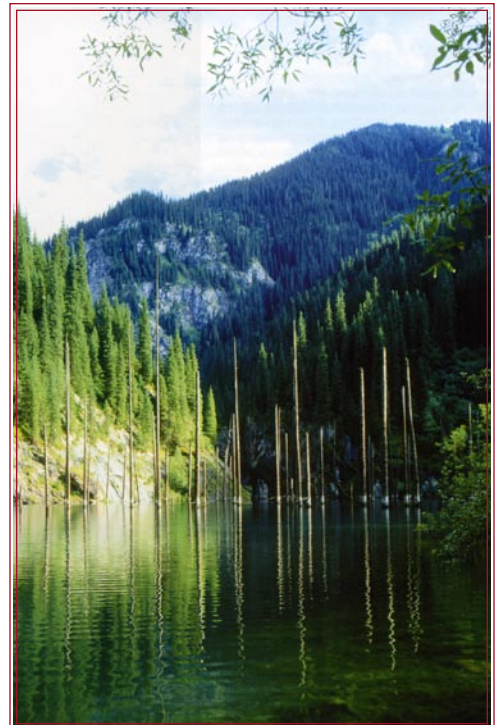

AAI is proud to announce the newest addition to its international programs!

A program in Kazakhstan is now open and ready to help this country's orphans find their forever families.

These beautiful children are Asian, Caucasian, or Eurasian in appearance, reflecting the vast ethnic diversity of the Kazakhstani people. They receive loving care within several well-run orphanages in approximately eight major cities in Northern and Central Kazakhstan. Children are primarily healthy and may be available for adoption as young as seven months. Married couples and single women who meet certain eligibility requirements are urged to inquire.

Please contact Chandra, Kazakhstan Program Manager, at **616.667.0921** or **cdoorn@adoptionassociates.net**, or go to **www.AdoptionAssociates.net**, for more information about this program.
